

EVO LITE high

new

N

Ref. HA005 (helmet with ventilation system), HA006 (helmet without ventilation system)

THE LIGHTEST PROTECTIVE HELMET AVAILABLE ON THE MARKET

At only 300g, Evolite is extremely light, i.e. approx. 20% less than standard helmets. Low weight, combined with a very comfortable suspension strap and unique three-point adjustable depth of the suspension strap provides a perfect fit for any size of the head. Thanks to its light shell, made from ABS, and the innovative structure, EvoLite surpasses the requirements of EN397 standard.

weighs only

300g

that is

20%

lighter than a typical helmet

1 UNPARALLELED COMFORT

Weighing less than 300gr, helmet with a 6-point torlen suspension strap delivers unparalleled comfort and high protection.

2 LUXURY SWEAT COVER

Egyptian cotton, coated with porous polyurethane for maximum sweat absorption. Neutral pH, dermatologically tested.

3 PRECISE ADJUSTMENT

Never before did any helmet reach such a high adjustment range. A unique 3-point adjustment of suspension strap: 1 – for smaller, 2 – for medium, 3 – for larger sizes.

4 UNIVERSAL HOLES FOR ACCESSORIES

Holes enable the fastening of ear protectors and Surefit guards.

5 VENTILATED VARIANT

It has air vents on the front and rear for optimum air circulation, lowering the temperature by 2-3 degrees on average.
